**Re: Historic Use Production Permit  
Application No. HUPP-2010-017**

Dear Mr. Waldrop,

Please be advised that the Southern Trinity Groundwater Conservation District (the "District") received your Historic Use Production Permit Application on April 21, 2010. Pursuant to § 9.209 of the District's Rules, the District's general manager has reviewed your application and has determined that the application is not administratively complete. More specifically, the application has the following deficiencies:

1. Part A Line 12 reads that the maximum production was 68,454,500 gallons in the year of 2008. The documentation supporting this number is missing. We need copies of your daily well logs that equal this amount.
2. Copies of deeds for each well site are also missing.
3. A copy of your CCN map
4. A copy of your Drought Contingency Plan

You must submit the above documentation in writing to the District within 30 days of your receipt of this letter or your incomplete application will be returned to you.

The above deficiencies were discovered during the preliminary review of your application. Your application is currently under additional review. The District will inform you in writing if any additional information or clarifications are required, or that your application is administratively complete.

If you have any questions concerning this matter or the District's Historic Use Production Permit program in general, please call Tricia K. Law at (254)759-5610.

Please keep this letter as a permanent record for your file.

Sincerely,

Tricia K. Law  
General Manager
